This PDF is the complete record of your game, including the names and mobile numbers of everyone who took part. Please keep it safe: it is the only copy of this data that exists once we delete ours.

What we keep, and what we delete

We have given you ALL the data we hold about the people in this game. Within 24 hours of the game ending, and no later than Sat 16 Jan 2027, 03:23:20 IST, we permanently delete from our systems every participant's name, mobile number, join record, seat assignment and invite link record. After that nobody at Corporate Luck by Chance, and nothing in our software or database, holds them.
We keep, for 365 days, only: (1) the details of the organizer, host and co-hosts (name, e-mail, mobile number); and (2) the winners record: which prize, which place, at what time, and the seat number. The winners record holds no names or numbers.
Everything about this game, including those two records, is deleted at 00:00 hours (IST) on Tue 28 Dec 2027, which is the end of the 365th day. We keep billing data for audit and tax reasons.
For your next game you can reuse the people list until it is deleted (the reuse button in your console), or upload your own list again afterwards from this report.

7. When your data is deleted

Data	Deleted by
Participants' names and mobile numbers, seats, invite links	Sat 16 Jan 2027, 03:23:20 IST
Organizer / host / co-host details and the winners record	00:00 hours IST, Tue 28 Dec 2027

You can ask us to delete everything sooner: press 'Erase' in your console, ask your AI assistant to request it (you confirm in your console), or e-mail us from your registered address.

8. Our commitment to your data

All of it is deleted. Here is exactly what, and when.

1. Everything about the people in this game (every name, mobile number, seat, join record and invite record) is permanently deleted from our systems within 24 hours of the game ending, and no later than Sat 16 Jan 2027, 03:23:20 IST. You have all of it in this report; after that we hold none of it.
2. We keep only two things, for 365 days: the details of the organizer, host and co-hosts (name, e-mail address and mobile number), and the winners record (which prize, which place, at what time, which seat number). The winners record has no names and no mobile numbers.
3. At 00:00 hours IST on Tue 28 Dec 2027, the end of the 365th day, everything else is deleted too. We keep billing data for audit and tax reasons.
4. Names and mobile numbers are stored encrypted while we hold them, and only your own game's report is ever built from them.

The laws we follow

Corporate Luck by Chance is built to follow India's Digital Personal Data Protection Act, 2023 (DPDP Act), the European Union's General Data Protection Regulation (GDPR) and the United Kingdom's equivalent, and the privacy laws of the United States, including state laws such as the California Consumer Privacy Act (CCPA / CPRA).

In practice this means: we collect only the data needed to run your game; we use it only for that purpose; we protect it with encryption; we keep it for the shortest time we can and tell you exactly how long; we never sell it or use it for advertising; and the people who took part, and you, can ask us to show, correct or delete their data at any time.

You are the organizer of your game and decide who takes part; we process the data on your behalf. To exercise any right, or to ask us anything, reply to the e-mail this report came with.
